## WHO AM I?

As a Full-Stack Developer, I have a passion for bringing ideas to life using the MERN stack and Django. With a Master's degree in Computing in the Humanities, I specialize in full stack development and have worked on various web projects while managing my own blog. My academic background in philosophy enhances my problem-solving skills and ability to tackle complex topics.

## EXPERIENCE

2024 – today

### Full-Stack Developer

Freelancing

I'm now a full-stack developer focused on the MERN-Stack. I work with React, Node.js, Next.js, TypeScript, Tailwind, and MongoDB. I'm open to full-time opportunities.

2015 – 2018  
part time

### Student Research Assistant

University of Bamberg

I developed my first web application in Django, with help and feedback from a senior developer.

## EDUCATION

10/2024

### IBM Full-Stack JavaScript Developer Professional Certificate

IBM Skills Network via Coursera

Holders of this certificate showed their ability to build cloud-native full-stack applications using JavaScript. They are prepared to take on the challenges of an entry-level full-stack developer role. Learners can build, deploy, test, run, and manage full-stack applications.

2024

### MS Computing in the Humanities

University of Bamberg

The interdisciplinary curriculum emphasizes the design and development of software systems, equipping students with the necessary skills to contribute effectively in various contexts. The coursework covers multiple programming languages and provides a comprehensive overview of multiple sub-disciplines within computer science.

2020

### MA Philosophy

University of Tuebingen

During this program, I honed my analytical and problem-solving skills through extensive scientific work. Actively engaged with the student body as a member of the Philosophy Departmental Association, participating in various projects that fostered academic dialogue and community building.

2017

### BA Philosophy

University of Bamberg

The program fostered strong analytical skills, problem-solving abilities, and a foundation in scientific methods. Actively engaged in various academic projects that emphasized logical reasoning and critical thinking, contributing to a well-rounded understanding of philosophical concepts and debates.

## LANGUAGES

English - fluent

German - native

French - proficient
